National Seminar**

On

“Culture: Through the Ages”

Date: 26 & 27, February, 2019

**Department of History
Berhampur University**

Bhanjabihar, Ganjam, Odisha

Themes of the Seminar

Culture, a systematic Knowledge of people which evolved since the civilization exists. History, through its modern eye defined culture as behavior, values, beliefs, and attitudes of the people. Culture is a way of life and traditional ideas of the people.

Defining culture through the historical studies is a challenge for the scholars and peers. However new ideas, theories, methods and expansion of scope in history provides a platform to define culture as a part of human civilization. It is an area of History that aims to embrace a broader field than that of historiography since it is not only limited to analysis of academic historical literature. Therefore, culture becoming a major issue for the life, society, and identity in present context. History has been defined culture on the basis of artifacts, remains, literature, etc. but culture as a subject to analyze through historical facts and methods are not at all an easy process. Thus study of culture now a challenge for the academicians as well as students of the history.

This National Seminar primarily to focus on the evolution of culture and its process, growth and its impact on the society through the ages.
